

LEGO Club

This club was created to allow kids who like to play with Legos the opportunity to do so and make new friendships in the process. Every month we will create original and a new lego builds that go with the chosen theme of the month. Check the themes at the end of the flyer. We also play lego games for prizes and showcase our talents in the halls of the school with the builds we have created for the month. Anyone can join. You can drop in or pay for the whole semester. I hope to build with you soon.

Mr. Gavin
