

LEGO Club is Back for the NEW Year

This club was created to allow kids who like to play with Legos the opportunity to do so and make new friendships in the process. Every Trimester we will create original and a new lego builds that go with the themes for the Trimester. We also play lego games for prizes and showcase our talents in the halls of the school with the builds we have created for the month. Anyone can join. You can drop in or pay for the whole semester. I hope to build with you soon.

Mr. Gavin
