## ROBOT CHALLENGE!

In Snapology's Robot Challenge, the students will be challenged to design and construct a robot to perform rescue tasks in a simulated disaster. Students will learn techniques similar to those used by engineers and scientists in the development of real-life disaster relief robots. Students must first meet the challenge, then engage in some friendly competition to see whose design does the job best. Prior robotics experience is not necessary. Students will work in pairs to complete the challenges.

DATES	TIMES	LOCATION	GRADES	COST
6 TUESDAYS, JAN 30 – MAR 5	3-4PM	SKS STEM ROOM	3 <sup>RD</sup> – 6 <sup>TH</sup>	\$126
