

SKS Trading Card Club

Who is allowed to join?

It is open to all grades girls and boys

What is the club?

I have decided to start this club for those kids who are like me and love the hobby of collecting Sports or Pokemon trading cards.

What do we do at the Trading Card Club?

We will organize our collection, learn about the value of the cards, and trade with one another under my supervision.

What cards will be traded?

All trading will be done in the club and will only be with the cards I provide to each member every week.

Do I need a binder or organizer for my cards?

No, it will be included with the initial fee for the club. I will provide each member with a binder to start with for organizing their collection. All members are encouraged to bring in cards they want to organize in their binder. Any loose cards laying around send them in so they can be organized.

Do you have to come every week?

No, come whenever you want! Just let Mr. Gavin know a couple of days in advance.

Do I bring in expensive cards or graded cards that belong to other family members?

Do not bring in any cards of high value. The club will not be responsible for the loss or theft of those cards.
